EDUCATION

PhD, Computer Science
Federal University of ABC (UFABC)
2025 – Present
Santo André, SP

PgCert, Data Science and Machine Learning
Massachusetts Institute of Technology (MIT)
2025 – 2025
Santo André, SP

MSc, Computer Science
Federal University of ABC (UFABC)
2019 – 2023
Santo André, SP

MBA, Finance and Administration
Webster University
2008 – 2009
London, UK

BS, Computer Science
Pontifical Catholic University of São Paulo (PUC-SP)
2000 – 2003
São Paulo, SP

Post-secondary Technician, Data Processing
Instituto Federal de Educação, Ciência e Tecnologia de São Paulo (IFSP)
1996 – 1999
São Paulo, SP

HONORS & AWARDS

🏆 Distinguished Paper Award

Attended the XII Congresso Brasileiro de Software: Teoria e Prática (CBSoft SBES 2021), where his work "A Mining Software Repository Extended Cookbook: Lessons learned from a literature review" (D.BARROS et al., 2021) won an award as a distinguished paper in Research Track. September 2021.

🧠 Inventor · githubmining.rc

Attended the III Congresso Prêmio UFABC de Inovação and was honored as the inventor of the gthbmining.rc technology (D.BARROS; F.HORITA; D.FANTINATO, 2020; INOVAUFABC, 2021). September 2021.

PROFESSIONAL SUMMARY & OBJECTIVE

I am a Computer Scientist with extensive experience in software engineering, technical leadership, and global technology delivery. After a solid career in the financial industry — building and managing complex systems in São Paulo and London — I am now focused on advancing research in Artificial Intelligence and Inclusive Education.

I have led global developer training programs, strengthened platform enablement teams, and driven major AI initiatives, including generative AI solutions such as intelligent documentation bots, AI-assisted code generation, and large-scale learning systems. I hold an MSc in Computer Science (UFABC) and published award-winning research, receiving the Distinguished Paper Award at CBSoft/SBES 2021.

Currently a Researcher pursuing a PhD, I investigate how AI and Computer Science can enhance accessibility and improve learning experiences in inclusive educational environments. Born in Brazil, I hold dual Brazilian–Italian citizenship, am fluent in Portuguese and English, and have basic knowledge of Italian and German.

PROFESSIONAL EXPERIENCE

Doctoral Researcher — 06/2025 – Present

Federal University of ABC (UFABC)
Santo André, SP

Software Engineering · Artificial Intelligence · Inclusive Education

Software Engineering Manager — 05/2022 – 06/2024

Genesis Global
São Paulo & London

- Led a multidisciplinary learning team focused on the successful migration of public documentation to a redesigned site, enhancing quality and user experience.
- Implemented enablement programs and technical training for internal developers and global clients across Americas, Europe, and Asia. Launched a Learning Management System (LMS) to boost community growth and platform adoption.
- Spearheaded AI initiatives, integrating generative AI with innovative features: documentation bots, code generation, and intelligent services.

Python · Java · AWS · Machine Learning · Generative AI · LMS · Technical Training · Banking

Research & Development — 01/2018 – 06/2024

Channel 360
São Paulo, SP

- Tech Advisory and speaker at company events; led the Software R&D team and mentored developers.
- Technical reference for two academic projects: (i) Data Waterproofing – citizen science app for community resilience; (ii) Portuguesa Pepper – enabling Portuguese on the humanoid robot Pepper, PoC with IoT and AWS Greengrass.
- Employed advanced stack: Java, .NET Core, RESTful APIs, Xamarin Forms, AngularJS, Docker, SQL on Linux, Spark, Kubernetes, Azure, AWS. Principal investigator in scientific articles.

Java · .NET Core · Angular JS · Azure · AWS · Kubernetes · IoT

Software Engineering Manager — 2000 – 2017

Solera, Banco Daycoval, Banco BV, Royal Bank of Scotland, Crivo
São Paulo & London

- Head of Software Development Department: responsible for sustaining and project platforms, budget planning, resource allocation, software factory management, and delivery control.
- Acted as facilitator and primary business contact for software projects.

Java · .NET · Angular JS · Python · AWS · Azure · Banking

LANGUAGES

- Portuguese — Native / Fluent
- English — Fluent (C2)
